MATH 220 (Washington)  Fall 2016  Sections 0211-0242

Lectures: ARM 0131  MWF 11:00-11:50

Lecturer: Larry Washington  Office: Math 4415  Phone: (301)405-5116  e-mail: lcw@math.umd.edu
Office hours: Monday 9:30am-10:30am and Thursday noon - 1:30pm
Course web page: http://math.umd.edu/~lcw/220.html. Course announcements will be on Elms.

Teaching Assistants:
Ying Han  Office: MTH1305  e-mail: hanlucky@math.umd.edu
Sections 0211, 0221, 0231, 0241  Room: MTH B0421
Sean Ballentine  Office: MTH4202  e-mail: seanbal@math.umd.edu
Sections 0212, 0222, 0232, 0242  Room: MTH B0427

Description: An introduction to calculus for students in the social and management sciences, business, and architecture. Applications of calculus form an important part of the course.

Text: *Calculus and Its Applications*, 13th ed., by Goldstein, Lay, and Schneider (required)

Topics: (in *Calculus and Its Applications*)

- Chapter 1: Derivatives  6 lectures
- Chapter 2: Applications of derivatives  8 lectures
- Chapter 3: Techniques of differentiation  2 lectures
- Chapter 4: Exponentials and logarithms  6 lectures
- Chapter 5: Applications of exp. and log.  4 lectures
- Chapter 6: Integration  6 lectures
- Chapter 7: Functions of several variables  4 lectures

Exams: October 7, November 9, December 7. Each student must bring her or his University picture ID card to the exams. Makeup exams will not be given unless a student can present substantial evidence that an absence was caused by serious illness, a death in the immediate family, religious observance, participation in University activities at the request of University authorities, or compelling circumstances beyond the student’s control. If the absence is caused by foreseeable circumstances, notice must be given in advance in order to be allowed to take a makeup exam. Students who do not provide adequate documentation for their absence will receive a score of zero for the exam. Each exam is worth 100 points and will last 50 minutes.

For more on University policies for absences and many other issues, see http://www.ugst.umd.edu/documents/CourseRelatedPolicies.pdf

Homework: Homework in on-line using MyMathLab. At the end of the term, the total homework score will be converted to a 50-point basis.

Quizzes: Most Discussion sections will have with a short 10-minute quiz. The questions will be identical to MyMathLab questions, except possibly with different numbers. The sections for the quiz are listed on the Course Schedule. Usually the sections are those covered in the previous week’s lectures. At the end of the term, the lowest two quizzes will be dropped and the total quiz score for the remaining quizzes will be converted to a 100-point basis. The rules for makeup quizzes are the same as those listed above for exams.

Lecture Questions: During many lectures, there will be “clicker” questions (using the software Learning Catalytics). Scores on these will be based more on participation than on correctness. Students should bring the appropriate electronic device (smart phone, laptop, tablet, etc.) to each lecture. At the end of the term, the total score for these activities will be converted to a 50-point basis.

Final Exam: Wednesday, December 14, 1:30-3:30pm. You must bring your University picture ID to the final. The final exam will last 2 hours.

Grading
Midterms: 100 points each
Quizzes: 100 points total
Lecture questions: 50 points total
Homework: 50 points total
Final exam: 200 points
The lowest one of the following will be subtracted from the total: 1/2 of the lowest midterm score, 1/2 the quiz total, the lecture questions, the homework, 1/4 of the final exam score.

The total possible score for the course is 650 points.

Grades will be assigned approximately as follows: A: 90% - 100%, B: 80% - 89%, C: 70% - 79%, D: 60% - 69%, F: ≤59%. Plus and Minus grades will be used.

Calculators: Calculators will not be allowed for quizzes and exams.
