MATH 220 (Washington)  Spring 2016  Sections 0111-0142
Lectures: ARM 0131  MWF 9:00-9:50
Lecturer: Larry Washington  Office: Math 1106  Phone: (301)405-5059  e-mail: lcw@math.umd.edu
Office hours: Monday 10:30am-11:30am and Thursday 10:30am-11:30am
Course web page: http://math.umd.edu/~lcw/220.html. Most course announcements will be on Elms.
Teaching Assistants:
Elif Kuz  Office: MTH0210  e-mail: elifkuz@math.umd.edu
Sections 0111, 0121, 0131, 0141  Room: MTH 0304
Patrick Daniels  Office: MTH4204  e-mail: pdaniel1@math.umd.edu
Sections 0112, 0122, 0132, 0142  Room: MTH0201
Description: An introduction to calculus for students in the social and management sciences, business, and architecture. Applications of calculus to these disciplines form an important part of the course.
Topics: (in Calculus and its Applications)

Chapter 1: Derivatives  6 lectures
Chapter 2: Applications of derivatives  7 lectures
Chapter 3: Techniques of differentiation  2 lectures
Chapter 4: Exponentials and logarithms  4 lectures
Chapter 5: Applications of exp. and log.  3 lectures
Chapter 6: Integration  7 lectures
Chapter 7: Functions of several variables  6 lectures

Exams: February 24, April 6, April 29. Each student must bring her or his University picture ID card to the exams. Makeup exams will not be given unless a student can present substantial evidence that an absence was caused by serious illness, a death in the immediate family, religious observance, participation in University activities at the request of University authorities, or compelling circumstances beyond the student’s control. If the absence is caused by foreseeable circumstances, notice must be given in advance in order to be allowed to take a makeup exam. Students who do not provide adequate documentation for their absence will receive a score of zero for the exam. Each exam is worth 100 points and will last 50 minutes.

Homework: Homework in on-line using MyMathLab. At the end of the term, the total homework score will be converted to a 50-point basis.

Quizzes: Most Discussion sections will have with a short 10-minute quiz. The questions will be identical to MyMathLab questions, except possibly with different numbers. The sections for the quiz are listed on the Course Schedule. Usually the sections are those covered in the previous week’s lectures. At the end of the term, the lowest two quizzes will be dropped and the total quiz score for the remaining quizzes will be converted to a 100-point basis. The rules for makeup quizzes are the same as those listed above for exams.

Lecture Questions: During most lectures, there will be “clicker” questions (using the software Learning Catalytics). Scores on these will be based more on participation than on correctness. Students should bring the appropriate electronic device (smart phone, laptop, tablet, etc.) to each lecture. At the end of the term, the total score for these activities will be converted to a 50-point basis.

Final Exam: Thursday, May 12, 1:30-3:30pm. You must bring your University picture ID to the final. The final exam will last 2 hours.

Grading
Midterms: 100 points each
Quizzes: 100 points total
Lecture questions: 50 points total
Homework: 50 points total
Final exam: 200 points
(The total possible score for the course is 700 points.)

Calculators: Calculators will not be allowed for quizzes and exams.
